CEO MESSAGE

The challenges of individuals who learn differently including those with dyslexia are multi-faceted. Those who learn differently encounter unique challenges in different languages and different subjects. They also encounter changing demands at different stages of their educational journey from Preschool to Primary and Secondary School through to Institutes of Higher Learning and during their adult working lives. Our students from different age groups receiving different awards from the many DAS programmes during the annual DAS Student Graduation and Achievement Awards Ceremony reflect the wide range of needs of children and people who learn differently!

DAS is only able to provide these programmes and services because Singapore is a leader in education globally with a mature and sophisticated education system with incredible support from the community at large! DAS thanks the Ministry of Education and all our wonderful supporters!

To the DAS students who are graduating or receiving good progress awards, you can be very proud of your achievement as you have attained this milestone despite significant personal challenges which you have overcome with your courage, adaptability and resilience! While I am sure you are thankful to your teachers both in school and at DAS, do express your appreciation to your parents who have been stood staunchly behind you throughout!

Together as a family, I am confident you will continue to develop, grow and achieve! Be proud that you learn differently! Embrace this as your strength!

Once again, my utmost congratulations to all students and their parents!

Reflections from Auni Rezqah Aleisha Binte Suhaimi

You do not have to be ashamed just because you have dyslexia as having dyslexia does not really make you different from the rest. It just means that you learn differently and at a slower pace. It did not bother me when people talked about my dyslexia because I appreciate being who I am. DAS has helped me in many ways, in the way I speak, write and do my schoolwork. Ms Karen is a very kind teacher and with her patience with her students, she is the best teacher. When I leave DAS, I will miss the fun activities we do as a class, the online games and more. I would like thank Ms Karen for guiding me through my whole journey in DAS.

I am deeply grateful for their guidance and encouragement throughout my journey. I will miss the fun games and bonds with my classmates. I especially want to thank Ms Karen, Ms Amrit, and Ms Nabilah for being incredible teachers.

Reflections from Karen Wong

Reflections from Soh Jun Teck Javen

Since my journey in life will soon be taking me away from DAS, I would like to take a moment to express my heartfelt gratitude to the teachers and staff who have guided me through all these years. Your support has been invaluable in shaping the person I am today. I would especially like to acknowledge Mrs. Camilla, who has been my teacher since I started in Primary Four. Mrs. Camilla, you have nurtured and guided me with unwavering dedication, helping me grow both academically and personally. Without your support, I would not have achieved what I have today. I have truly enjoyed the classes at DAS over the years. I have many fond memories of the times I shared with my friends and Mrs. Camilla, as we celebrated each other's achievements and milestones. By doing so, we created a friendly atmosphere where everyone felt free to talk to one another. I fondly remember those days when, during the last few lessons of the year, we would sit together in class watching movies. Mrs. Camilla would bring us food as a reward for our hard work. These are memories that will indeed last a lifetime. Looking ahead, I am aiming for the Polytechnic Foundation Programme (PFP), which allows N-level students to join the polytechnic of their choice. However, to qualify, I will need to achieve a score of 12 points or below, and I am optimistic that I can do this. But if I don't make it, I will continue my journey at ITE. After two years of study there, I can also pursue a program that will enable me to attend the polytechnic of my choice. Whatever challenges and adversities life may present in the future, I will fight hard to keep moving forward and not let the past dictate my future. I will not surrender. Once again, thank you to all the teachers, staff, and classmates who made my journey at DAS truly pleasant and memorable. I would like to end with this thought: "Our journey may end here, but the memories will last a lifetime."

Reflections from Camillia Churemi
